U.S. Department of Agriculture

Economics and Statistics Service

Cooperating With

The West Virginia Department of Agriculture

George M. Ferrell
State Statistician

Gus R. Douglass
Commissioner of Agriculture

All State data presented in this bulletin are official estimates of the U.S.D.A. Crop Reporting Board unless otherwise designated. County estimates were developed from voluntary reports received from West Virginia farmers in combination with data collected from the Annual Farm Census taken by the County Assessors. The U.S. Census of Agriculture taken every five years is used as a bench mark. A word of appreciation is extended to the Staff who worked diligently in the preparation of the bulletin: Statisticians—Glen F. Smith and Greg Stamm; Clerical Staff—Ramona Lewis, Supervisor; Loretta Rodgers, Kathleen Krise and Geraldine Kent, Clerks; Carol Mace, Typist; Joe Ann Bowman—Mail Clerk. Printing was by the Information Division, West Virginia Department of Agriculture.

To Those Interested in West Virginia Agriculture

In these days of constant and rapid change when our way of life is being threatened, one of our most important resources is renewable—agriculture. But is it getting the emphasis it should? Not only our physical existence is dependent upon agriculture, but our economic existence nationally is now dependent upon agriculture. As exports increase, the need for increased production rises. As costs of transportation services increase, the demand for local production increases.

Without measures of our supplies and production prospects, we could suddenly be in serious trouble. The West Virginia Crop Reporting Service, operated cooperatively by the West Virginia Department of Agriculture Statistics Division and the U.S.D.A.'s Economics and Statistics Service, compiled the data presented in this bulletin. Much of these data were provided voluntarily by West Virginia farmers and agriculturally related businesses. Although it is becoming more difficult to obtain, information of this type would be impossible without this voluntary cooperation.

Our County Assessors and their Deputies are recognized for their contributions in submitting West Virginia Farm Statistics.

Additional copies of this bulletin may be obtained upon request.

Very truly yours,

Gus R. Douglass

Gus R. Douglass
Commissioner of Agriculture
